

Dosages

Human Health

2-3 teaspoons 2-3 times daily in a glass of water (warm or cold) or fruit juice. Honey can be added for sweetness. Best taken with food if you have a sensitive stomach. Use as an ingredient in marinades, sauces, dressings and other culinary uses.

Animal Health

ACV can be added to feed, diluted as a drench or put in a container for ad-lib feeding, diluted 50/50 with water. Do not use a metal container (stainless steel is fine).

Cattle

The key to a successful ACV programme is:

1. Dose animals daily
2. Begin treatment prior to calving
3. Target animals with problems

Cows: 60ml per day

Calves: 20ml per day

Mastitis: Early cases 60ml twice daily for one week

Severe cases 120ml twice daily for 3 days followed by 60ml twice daily for 10 days

Milk Fever: 120ml daily for 6 weeks prior and 3 weeks after calving

Acetonaemia: 1st day 300ml as a drench, when appetite returns 60ml twice daily for 10 days

Arthritis/ Stiffness: 80ml on feed twice daily

Fertility: Cows 120ml daily from 5th week after calving to serving

Heifers: 60ml daily for 1 month

Drying off: 120ml daily for 1 week then reduce to 60ml daily while necessary

Ringworm: Mix 2 tbsp of Copper Sulphate with 400ml ACV, rub into lesions (use only ACV on the head)

"Farmers all over New Zealand report that using ACV is an effective preventative for many dairy cow ailments. They find that regular dosing assists in lowering somatic cell counts and reducing mastitis." Redwood Animal Health, New Zealand

Pigs

Pigs: 30ml per day

Piglets: From 6 weeks 10-15ml daily

Dogs & Cats

Cats: 5ml per day

Small Dogs/ Puppies: 15ml per day

Medium Dogs: 15ml per day

Large Dogs: 20ml per day

External Parasites / Skin Problems: After washing, spray on 50/50 ACV and water

Horses

Feed: 60ml twice daily in each feed

Fly Repellent: Dilute 50/50 with water

Hoof Problems: Soak 50/50 ACV and water

Poultry

Young Birds: 10ml per litre of water

Adult Birds: 10ml per litre of water build up to 20ml

Pigeons & Caged Birds

Young Birds: 5ml per litre of water every other day

Adult Birds: 10ml per litre of water every other day

Sheep, Goats & Alpacas

Young: 5-10ml per day or 10-20ml monthly

Adult: 10-20ml per day or 20-30ml monthly

Available Sizes:

1 Litre

5 Litre

25 Litre

1000 Litre IBC

Organic Apple Cider Vinegar

With

* Organic Black Garlic

* Organic Ginger

* Organic Turmeric

*"Mother Nature's
Perfect Food"*

From British Apples

Organic Apple Cider Vinegar

Our Organic ACV made from British Apples is non-pasteurised and contains natural goodness and beneficial active enzymes.

There are 93 different compounds found in ACV including:

- Bioflavonoids (vitamin P)
- Beta-carotene (precursor to vitamin A)
- Vitamin C, E, B1, B2 & B6
- Tannins from the crushed cell walls of fresh apples
 - Malic acid
 - Tartaric acid
 - Propionic acid
 - Acetic acid
 - Pectin

Along with many other powerful nutrients which are important in fighting, ridding body toxins and purifying the cells.

Proven benefits:

- ✓ According to British Journal of Nutrition (2006) ACV can effectively reduce cholesterol levels.
- ✓ Blood Glucose levels can be reduced by up to 6%
- ✓ Evidence suggests ACV consumed before a meal promotes the feeling of being full. Resulting in you eating less and having reduced weight gain.
- ✓ Blood pressure levels have been found to reduce due to the acetic acid found in ACV

ACV may help with the following:

Immune System	Itching & Ringworm
Infection Fighting	Fertility & Birthing
Arthritis & Stiffness	Vitality of Offspring
Metabolism	Insect & Parasites
Weight	Chronic Fatigue
Blood Pressure	Bites & Stings
Cardiovascular	Stamina & Endurance
Digestion	Somatic Cell Counts
Constipation & Diarrhoea	Mastitis
Urinary Tract Infections	Coat Condition
Bladder Stones	Bright Eyes
Hair Condition	Prevent Soft-Shell Eggs
Skin & Nails	Fly Spray
	Wash for Animal Housing

Frequently Asked Questions

What is Natural Apple Cider Vinegar?

Organic Apple Cider Vinegar is a well known food supplement, water purifier and natural antibiotic, made from whole sweet apples, rich in minerals, vitamins, enzymes and trace elements.

What is the nature of "mother"?

Unpasteurised ACV contains natural beneficial active enzymes. "Mother" forms naturally from these enzymes, pectin and apple residues, creating molecules of protein connected in strand like chains. If left undisturbed, as the ACV ages this may become visible to the naked eye as a delicate cobweb like substance. This may become broken up during transit.

Why does the colour of ACV vary?

Colour varies depending on the variety of apple used.

Apple Cider Vinegar & Black Garlic

The Benefits

- * Garlic may reduce inflammation, boosts immune function and boosts cardiovascular health in many ways.
- * Allicin, a compound found in Garlic is a sulfur-rich compound that helps to protect against bacteria, viruses, fungi, and parasites.

Apple Cider Vinegar & Ginger

The Benefits

- * Ginger may reduce muscle strain and soreness.
- * The anti-inflammatory effects may help with osteoarthritis.
- * Ginger may drastically lower blood sugars and improve heart disease risk factors.
- * Ginger is known to help treat chronic indigestion.

Apple Cider Vinegar & Turmeric

The Benefits

- * Curcumin (the active compound in turmeric) may help delay aging and fight age-related chronic diseases.
- * Studies show that Turmeric has incredible benefits against depression.
- * Arthritis patients have been known to respond very well to Turmeric supplements.
